

## Inkjet paper Instructions

### How to Apply Inkjet waterslide decal paper

- Step #1: Design your decals using any graphic software program. (Use 8 1/2 " x 11" sheet INK JET Decal Paper or cut sheet into half if desired.)
  
- Step #2: Set your printer as follows:
  - Resolution = Best
  - Paper = Photo Gloss
  - (Print your decal on the glossy side of INK JET Decal Paper.)
  
- Step #3: Spray your printed sheet evenly with Acrylic Crystal Clear High Gloss spray until the sheet has a shine (2-3 coats). Allow 30 to 60 minutes to dry and set.. Any acrylic clear coat spray will work.)
  
- Step #4: Cut out your image using a standard pair of sharp household scissors.
  
- Step #5: Place decal into a cup of clean water for 45-60 seconds and remove when the thin decal film begins to slip along backing. (Discard backing material after the decal has been removed)
  
- Step #6: Apply decal to clean surface; ceramic, glass, metal, plastic, soap, candles, mylar balloons, model trains, planes, cars, etc.
