#4500: Motorised turntable:

"Bridge-in-pit" style based on the #1515 bridge (220mm long), scales at 63 feet in HO, 46 feet in S scale. The motor drive (12 volt) is self-contained beneath the pit (requires a minimum depth of 65mm below the surface) and automatically indexes to 18 positions at 20 degrees. Includes #45001 control switch and English language instructions.

Kitset Buildings

Easy-to-assemble precoloured plastic kitsets. The instructions are in Portuguese only but include an "exploded" diagram. Assembly is quite straightforward so the diagram is a perfectly adequate guide.

1500:Telegraph poles (10)

1502:Island platform kit

1509:Tunnel portals (pair single or double track)

1511: Piers, 12 piers up to 65mm high in 5mm steps
